

CRYSTAL CONSTRUCTIONS & DEVELOPERS

ROBUST PERFORMANCE. COMPELLING OUTLOOK.

Crystal Constructions & Developers is a leading construction company that can be most relied-upon to deliver excellent outcomes for construction and developmental projects - regardless of geographical terrain or project complexity.

The year gone by was assertion of our capabilities.

It was one which was marked by captivating performance – both operationally and financially.

Once again through superior execution skills, state of art machinery and efficient procurement planning, Crystal Constructions & Developers is completing projects ahead of its scheduled time, redefining the bar of excellence in the industry. For other projects in progress, we continue to move steadfast towards their completion with the finesse associated with our Company.

Our strong performance is also reflected in our high internal rate of return for our projects, achieved through cost and operational efficiencies across all our operations. Boosting our financial robustness sets a cycle in motion by allowing us to bid for new projects. We have already secured large ticket orders this year, which will help us to grow in size, reputation and profitability. And in the current economic landscape where Real Estate & infrastructure creation is being given the highest priority, capitalizing on the unfolding opportunities will take us resolutely on the trajectory of delivering even greater value.

Yes, we have delivered an impressive performance today. But for us, the journey has just begun. For we believe, our strong performance today is a precursor of even stronger performance tomorrow.

ABOUT US

Established in 2020, “**Crystal Constructions & Developers**” is a leading construction and development company. We are among the leading providers of integrated engineering, procurement, construction services and Infrastructure of the state. Leveraging our experience and expertise in the Villas, High raised Apartments construction, Development of Residential layouts, Roads, Drains & Parks etc., in Hyderabad.

“**Crystal Constructions & Developers**” has presence with all over Telangana. These operations conducted across a range of geographies, on different and challenging terrains, has enabled us to amass a full range of skills and capabilities. With our competencies well proven in creating Building landmarks, we are continually expanding this presence further.

Delivering outstanding projects with timely execution has been a function of our resources, which include approximately 20 Nos of talented employees and a diversified fleet of specialty construction equipment. Maintaining standards & procedures of ISO 14001:2004, 9001:2008 and OHSAS 18001:2007 “**Crystal Constructions & Developers**” has marked its step forward towards quality & safety; and also renowned for extensive knowledge and experience, technological advancements, superior safety and commitment to deliver.
